Sub-Regatta Neulengbach 2007 is coming! Remember, that this international event held in Neulengbach near Vienna (Austria) every two years is back on the September 20th. The Sub-Regatta in Neulengbach is getting more and more popular and every two years there are many more participants then previously.

Most of the participants come from Austria and Germany, however there are also allways some modellers from The Czech Republic, Slovakia and Hungary. You can also meet there few modellers from remote parts of Europe.

The Sub-Regatta Neulengbach 2007 starts on Saturday 20th September at 9:00 in the morning and finishes on Sunday after 17:00. Program consist night submarine rides, mini-submarine competition for kids, some complementary competitions and of course of "happy boating".

The Sub-Regatta 2005 was somehow unlucky in terms of weather as the rain was pouring down almost all the weekend, making life difficult to both modellers and photographers who had to protect their gear (would it be camera or RC equipment) from watter.

The rain didn't scare anybody away and organizers took care about keeping everybody in a good mood. You can read more about Sub-Regatta 2005 on our web site and take a time to visit Sub-Regatta Neulengbach 2005 photo gallery with number of pictures from the event.

Invitation in English could be found here (there is a German version on IGU-Austria web site as well).

See you there!
